EDUCATION

2022-2025
CHNADIGARH UNIVERSITY

- Bachelor's of Computer Applications
- CGPA: 8.3/10

SKILLS

- Web App Developer
- Android App Developer
- Video Editor & Post Production
- AI Engineer
- Java & Kotlin
- HTML&CSS
- C++&C
- Python
- Javascript
- PHP
- Machine Learning

LANGUAGES

- English & Hindi

PROFILE

Versatile digital professional with expertise in web and mobile app development, video editing, and AI engineering. I build dynamic websites using HTML, CSS, and JavaScript and develop intuitive Android apps with Java/Kotlin. With strong video editing skills that transform raw footage into engaging content—and experience integrating machine learning features using Python and AI frameworks—I combine technical proficiency with creative problem-solving to deliver scalable, innovative digital solutions.

WORK EXPERIENCE

Self-Employed - Remote

2022 - Present

- Web Development:** Developed responsive websites and web apps using HTML5, CSS3, and JavaScript (React/Vue/Angular); integrated backend APIs and databases (Node.js).
- Android App Development:** Designed native Android apps with Java/Kotlin in Android Studio, implementing API integration, real-time data sync, and push notifications; conducted testing and performance tuning.
- Video Editing:** Produced and edited video content using Adobe Premiere Pro and After Effects, applying color grading and motion graphics to enhance visual storytelling.
- AI & Machine Learning:** Built ML models using Python (TensorFlow, Keras, scikit-learn) and managed the complete deployment.
- Project Management:** Served as the primary client liaison, translating requirements into technical specifications and managing projects with agile methodologies and Git.
